Ref: SEC File No. 4-500 Request for Rulemaking Regarding Member Records of "Short" Positions and Reporting and Public Dissemination of Aggregate Positions by Security

Dear Mr. Katz:

I am voicing my adamant support for the efforts of Mr. Coulson, Chairman of the Pink Sheets organization in the above referenced SEC File. Our Company has developed a LIFE SAVING fire protection technology that is now being accepted on Aircraft, and WILL SAVE UNTOLD NUMBERS OF LIVES over the years. However, the HORRIFIC effect of stock manipulations during our development, and the extreme difficulty we had in just finding information regarding WHO was doing this to us, ALMOST DESTROYED US AND WIPED OUT THIS WONDERFUL PRODUCT several times. Only due to the stubborn, unrelenting efforts of our staff who WOULD NOT GIVE UP, did we survive this.

I was shocked by the regulators' statements of the system's inability to deal with the many, many cases of this activity. Who knows how many good products, or, as in our case, how many LIFE SAVING products have been lost this way?

When I read about the above effort by Mr. Coulson, I had to take a moment to voice my absolute support for him and this cause. PLEASE, DO SOMETHING ABOUT THIS, and this seems like a very good place to begin.

Sincerely,

Michael D. Kiser
President
